PHOEBE TAYLOR

byphoebetaylor.com linkedin.com/in/phoebe-taylor1 phoebe.t@wustl.edu (410)-620-8175 Baltimore, MD

EDUCATION

Washington University in St. Louis May 2028

B.S. Computer Science, Minors: Human Computer Interaction, Chinese

Involvement: WashU's UI/UX Organization (WashUX), John B. Ervin Scholars Social Media Committee, National Society of Black Engineers (NSBE)

Coursework: Visual Principles for the Screen, Introduction to Human Centered Design, Web Development, Video Game Programming, Digital Game Design, Object Oriented Programming

PROJECTS

nCommunity, Team Lead, UI/UX Designer | *WashUX* Sep 2026 – Present

- Lead a team of 5 designers redesigning nCommunity Studio, a platform connecting local businesses with their communities; scope the project and delegate deliverables.
- Send the stakeholder regular update emails and run recurring feedback meetings to share our progress and bring their feedback back to the team.
- Design low- and high-fidelity wireframes with the team, assigning research prep and leading reviews of the survey analysis.

Less Annoying CRM, Fellow May 2026 – Aug 2026

- Collaborated directly with the CEO on website redesign initiatives, creating 60+ high-fidelity Figma mockups and incorporating stakeholder feedback.
- Built and deployed a 3D interactive portfolio in HTML, CSS and Three.js, using Claude Code to speed development and explaining design choices to engineering mentors.
- Built a full-stack blog in a bootcamp using HTML, CSS, JavaScript, and MySQL.

Querri, UI/UX Designer | *WashUX* Feb 2026 – Apr 2026

- Benchmarked 6 platforms (3 direct, 3 indirect) and surveyed AI data tool users to diagnose onboarding drop-off and the "cold-start" problem.
- Designed landing page (4 wireframes to 7 interactive prototypes) and a 3-question onboarding flow in Claude Design that frames the product as an asynchronous analyst.

Pretus, UI/UX Designer | *WashUX* Sep 2025 – Nov 2025

- Redesigned the website from 8 wireframes to 12 interactive prototypes; the client adopted the final design.
- Restructured the landing page, navigation, and information architecture so core features (student report, question bank, AI personalization, mock interviews) are easy to find.

EXPERIENCE

Washington University in St. Louis, Marketing & Communications, Marketing Intern Sep 2026 – Present

- Pitch 3+ TikTok and Instagram Reel concepts weekly to university social media strategists, aligning ideas with institutional brand and audience goals.
- Film and edit short-form video on campus and student life for WashU's official accounts (103K+ and 19.8K+ followers).

National Society of Black Engineers, Telecommunications Chair Sep 2026 – Present

- Design promotional flyers for the chapter's Instagram (first 4 reached 4K+ views and 50+ interactions) and share event details with 368+ community members.

The Wexler Group, Computational Materials Chemistry Researcher Jun 2025 – Aug 2025

- Optimized Lennard-Jones atomic system models in Julia for Basinhopping.jl with 4 postdoctoral researchers, helping predict stable catalyst surface structures.
- Benchmarked BFGS, Gradient Descent, and Nelder-Mead in Python to find BFGS most efficient; visualized energy landscapes with contour maps in Jupyter.

SKILLS

DESIGN

Wireframing & Prototyping
Interaction Design
User Research & Surveys
Competitive Analysis
Information Architecture
Stakeholder Communication
Team Leadership
AI-Assisted Design
Visual & Motion Design
Figma, After Effects, Canva, Notion

PROGRAMMING

HTML, CSS, JavaScript, Three.js, Python, Java, C++, Julia, MySQL

Claude Code, VS Code, GitHub

HONORS

John B. Ervin Scholar
Under 1% acceptance rate: 1 of ~40 selected from 3,000+ national applicants

T. Howard Foundation Tech Track Finalist
Chosen from 750+ national applicants

LANGUAGES

English, Chinese
